Mr. Everette J. Travis
1126 Milam Building
San Antonio, Texas

Dear Mr. Travis:

Many thanks for your recent postcard and the offer of material. Yes, good examples of cone-in-cone would be welcome for instruction purposes in Geology 379.

How are you getting along? What are you doing? Are you getting any Tertiary stratigraphy information?

Best wishes,

Sincerely,

H. B. Stenzel, Geologist
