Dear Dr. Stenzel:

As I have probably told you, I have been busy with an assistant in compiling the Eocene and Paleocene molluscan catalogue of the southern and eastern United States. We are down with the manuscript to checking the whereabouts of pelecypod and cephalopods types. In the two references cited below you have the nautiloids listed as in your collection. Would you please tell us if they are still with you and how you would like them listed in the catalogue.

Thanking you,

Yours sincerely,

Katherine V.W. Palmer
