

March 17, 1967

Mrs. Thelma Guion, Geology Librarian
Geology Library, Geology Bldg. 201
The University of Texas
Austin, Texas 78712

Dear Thelma:

Please don't look so surprised. Here I am a Visiting Professor at the Geology Department and will continue here for some time. The place seems to be quite agreeable and relaxed. Each university has its own personal climate, and this one seems to suit me fine.

The eternal quest for information goes on. You have the following book: Cossmann, Maurice & Peyrot, A., 1914, *Conchologie néogénique de l'Aquitaine: Soc. linnéenne de Bordeaux Actes*, v. 68, p. 5-210, 20 figs., pls. 11-22, August 1; your catalog no. 560.944 C823C, v. 2. You could do me a great favor by loaning it to me for a brief time. In a way it is surprising that the local library here does not have this book. Generally, the local library is very good on serials. I believe it is better than all the local libraries in Houston put together and may even outnose the Geology Library at U. T. These facts were one of the attractions that made me pull up stakes in Houston.

Best wishes and hello to everybody

Sincerely,

H. B. Stenzel
Visiting Professor
