Dr. Norman F. Sohl
U. S. National Museum E-309
Washington 25, D. C.

Dear Norman:

Please accept my thanks for the copy of your recent Professional Paper, which interest me very much. Congratulations for a very fine piece of work.

From the preservation of your material, I suspect that you have some prodissoconchs of the Exogyras preserved. These would be rather important to study. Very young spat on the Exogyras should show the prodissoconchs. You might check on that idea.

Best regards,

Sincerely yours,

H. B. Stenzel
