Dear Dr Stenzel,

I have forwarded a parcel containing specimens of Ostrea sinuata and O. wuellerstorfi mentioned by Mrs Scott in her earlier letter to you. As soon as I complete the cast of the type of O. subdentata, this will follow. Unfortunately there will be some delay in getting the relevant literature photocopied, but it will be prepared as soon as the photographic division are able to fit it in.

Yours sincerely,

I.W. Keyes,
Paleontology Technician.
