Professor Carlos G. Aguayo  
University of Puerto Rico  
Institute of Caribbean Science  
Mayagüez, Puerto Rico

Dear Dr. Aguayo:

Thank you very much for sending me a copy of your Notas Sobre Moluscos Antillanos II, which I shall read with interest.

I am now working on the Ostreidae, both living and fossil, and am preparing a lengthy manuscript. So far, there are about 250 typed pages; I will end up with about 500 typed pages. In connection with this work, I am usually asking my friends about oysters. Do you have any good oyster specimens? Good specimens for illustration would help me very much.

With best wishes

Sincerely,

H. B. Stenzel
