## Reports

### President's Report

Annie Holand

- Hearts of Texas
- Tower...YEAH!!! WE DID IT!!!
- Town Hall meetings
- Legislative Conference

### Vice-President's Report

Owen Temple

- Today's date is November 3 and that means we are more than halfway done with the Fall semester. As an Assembly, we are succeeding in many areas, and great projects are resulting from our appropriations and committee work. In the interest of continuing to produce meaningful results, I'd like us all to come up with a plan of action for the next five weeks:
- How will I make a positive impact on UT students this week?
- What can I work on today to make students' life on campus a little bit better?
- More simply... what do I want to talk about when people ask me: what did you accomplish for students in Student Government?
- Think about what you'll do in the coming weeks to represent and serve students (however great or small), and I'll ask for some of us to share these ideas with the Assembly at the end of the meeting.
- I will also be posting an "Idea List" in the SG Office with issues and problem areas on campus that you may want to act on. Think of it as a running brainstorm session list, that you should add your own ideas to, and look to for project ideas.

### Internal Financial Director's Report

Michael Stockton

- Owen, Wes, and I want to update everyone about plans for the SG Endowment Fund and the alumni/reunion we are planning.
- Please look over the bill concerning spending out of the Checking Account
