The contempt, the arrogance, the feeling of being unsurpassable have always been the hallmark of the Tutsis. They have always considered themselves more intelligent and sharper compared to the Hutus. It's this arrogance and contempt which have caused so much suffering to the *Inyenzi-Inkotanyi* and their fellow Tutsis, who have been decimated. And now the *Inyenzi-Inkotanyi* are also being decimated, so much so that it's difficult to understand how those crazy people reason.... (Kantano Habimana, RTLM, 31 May 1994).

I spoke with General Romeo Dallaire on this situation, when I bumped into him at Nyabugugo. I was given to understand that Dallaire (smile) believes he is one and the same as UNAMIR. II; he thinks that if he were fired, UNAMIR would not have its place in Rwanda. He is a pretentious fellow. Simply, I told him that his favourite ethnic group, known as the *Inyenzi-Inkotanyi*, Tutsis, will disappear from the face of the earth in the end. We then had a discussion and a Senegalese soldier who was there separated us, but I told them in no uncertain terms that a minority ethnic group, which commits suicide by declaring war on the majority ethnic group will end up by disappearing once and for all, because it's committing mass suicide.

I don't know whether Dallaire will tell his friends about it, but it's inevitable.
