October 28, 1935

Mr. E. H. Sellards
Bureau of Economic Geology
Austin, Texas

Dear Sellards:

Miss Ideson of the public library here is rather anxious to get rid of the Dumble fossils. She called me up about the matter again this morning. I was talking this matter over with Fred Plummer yesterday, but I know how busy he is and thought it might be well to write in case it should slip his mind.

C. L. Baker was going to write Mrs. Dumble and make sure that she had no objection to depositing the fossils at the Bureau. I wonder if you would see whether he did so, and, if not, it would be well to do so. The geologists here in Houston are in favor of depositing them at the Bureau so that, as I see it, the only step to be completed is to get that consent from Mrs. Dumble. When you do, you can then write Miss Julia Ideson at the Houston Public Library the shipping instructions, and she will be very glad to get rid of them *(the fossils)*

Yours truly,

D. C. Barton

DCB:lth

I was sorry to miss seeing you the past week end.

CC: Mr. F. B. Plummer
