Mr. W. G. Bealmear
c/o Baroid Well Logging Service
Corpus Christi, Texas

Dear Mr. Bealmear:

Thank you very much for seeing to it that the photograph was returned. You people in Corpus Christi have been most wonderful to me, and I wish to express my profound appreciation for what you have done. I would like to mention specially that I appreciate that Gus Eifler was included in the dinner party. He had done me and your local society a good turn in bringing me down.

I had looked forward to the flight back to Austin, thinking I would see every outcrop belt from the air. Well, I saw the top of a yellow dust layer 1600 feet thick. Oh well, it was geological lesson anyhow.

My expenses on this trip were as follows: plane ticket \$14.84; hotel \$6.60; and phone call from Austin to Corpus (Dr. Oetking) \$1.20; Total \$22.64.

With many thanks.

Sincerely.,
