

December 14, 1962

Mrs. Katherine V. W. Palmer  
Paleontological Research Institution  
109 Dearborn Place  
Ithaca, New York

Dear Mrs. Palmer:

You are right. The "St. Augustine" must be a misprint for San Augustine, county seat of San Augustine County, east Texas, where the Weches formation is very fossiliferous. The town has been a well-known collecting ground from way back.

You are doing a very useful work in compiling the Catalog.

With my warmest wishes for the season,

Sincerely,

H. B. Stenzel
