

1180 Russell Ave.  
Los Altos ~~Calif~~, Calif  
Sept. 5, 1960

Dear Henzke:

"One thousand Swedes came out of the woods  
At the battle of Copenhagen" is my only reaction  
to the meeting place of the just completed Congress.  
I hope the Danian problem was also decided.

I hope you have continued to improve. I have  
but it is slow. At the end of the day I am pooped.  
To bed by 9:30.

It was two years ago last month I debaced.  
I had just started reading USNM Bull. 215 at that  
time. As I do not think weblick et al caused the  
stroke, I now return to it.

In the present overture of the USGS I have ended  
up in P+S, this making Chas Merriam my master.  
My honeymoon with the Gods is ended, I am subject to  
service work half time. This MAY rejuvenate me.  
The main thing seems to be support of Cret. -  
Jurassic mapping in the Sacramento Valley.

So I will at least get a partial education on pelagics.  
Ties with Houston and elsewhere much by neglected.  
Manage to keep in touch with Mark. He seems to  
be enjoying his "retirement".

I wonder how Peggy and Frank  
are making out. I no doubt owe Burke many cards  
but I still refuse <sup>to consider</sup> such as correspondence. I'm not  
mad, just stubborn.

No doubt I owe ~~to~~ Al a letter for a year or two.  
My conscience should bother me but it doesn't.  
Writing is work.

I hope all continues to go well with you.

As ever,  
Merle
