Dr. H. B. Stenzel
Bureau of Economic Geology,
University of Texas,
Austin, Texas.

Dear Stenzel:

Just a note to ask if you will help me do a favor for McAdams. He got through the last push all right, has 95 points and is applying for release. He makes the following statement:

"I should start some reading and studying in geology again. If there is anything good on sedimentation and stratigraphy I would appreciate your sending them to me. Also if there is anything on new developments or techniques in the oil business (Exploration). I can't handle over about three books but I do need to get down to a little work."

I am not in a position to secure any books for him and do not know all of the latest publications. If you will pick out and send him some books or other publications you think would be useful I will defray the cost. If you will make note of any expenditure you make and let me know the amount I will reimburse you. Will appreciate it greatly if you can take care of this. His address is:

Major R. E. McAdams,
Hq. 2d Bn., 362d Inf.,
APO 91, 7/8 PM, New York, N. Y.

Very truly yours,

John T. Lonsdale
