H.B. Stenzel
Bureau of Economic Geology
Austin, Texas.

Dear Dr. Stenzel:

I note in your paper "The Yegua Problem", p. 854 that locality, our No. 727 (material which was sent us by J.E. Adams and the description as we listed it was as he sent it to us) is erroneous.

As I have tried to contact Mr. Adams before the publication of the Claibornian report on several matters in connection with that collection but never seemed to have any results, would you please send me your revision for the probable wording for the locality?

With best regards,

Katherine V.W. Palmer
