Dr. H. B. Stenzel,
Campus.

Dear Dr. Stenzel:

The salary budget for next year has been passed and your salary will be the same as last year. I regret that I was unable to get a raise for you for I had hoped to see a substantial addition to your salary. It was only by cutting other funds that the present salaries were maintained. I understand that a number of positions have been lost completely. I might say also that we suffered a rather severe cut in our maintenance fund.

Was glad to hear you got the grant and hope you are having a good time. My work is coming nicely though the living conditions have been rather bad at times.

With kindest personal regards I am,

Very truly yours,

John T. Lonsdale

P.S. Almost forgot most important thing. The State is now on deficiency basis. Your checks will now be warrants and must be endorsed. The Fiscal Dept can't deposit them to your credit you must do it yourself. The warrants are subject to about 2% discount for cash. You should make some arrangement with Mrs. Edge about the warrants.
