Curt Faichert

Changes of address.

We have been informed that after April 1 ordinary mail addressed to APC 271, New York, will no longer be flown out here. Air mail reaching New York by April 20 will still catch me in Quetta. International air mail sent not later than April 23 should also reach me here.

I am due to leave Pakistan on May 1. During the month of May my address will be: c/o Mr. Clarence A. Wendel, Minerals Attache, American Embassy, Ankara, Turkey.

I shall leave Ankara about June 1. After June 1 my safest address will be Branch of Foreign Geology, U.S. Geological Survey, Washington, D.C. 20240, although I might not get there until the latter part of June or even later.

How are you, Henryk? Would be glad
to hear from you some time.

Curt
