

February 28, 1949

Dr. H. R. Aldrich, Secretary
The Geological Society of America
419 W. 117th Street
New York 27, N. Y.

Dear Dr. Aldrich:

In response to your letter of February 18 concerning periodic check on projects, I regret to state that at present my project is dormant. Due to the great amount of work which has been turned over to me since the war, I have not been able to do much work on this research and cannot give an approximate date for filing of the manuscript.

Very sincerely yours,

H. R. Stenzel
Geologist
