Dear Doc:

Thought you might like to have a little Souvenir of the German Army so I sent you a compass that I took off of ~~some~~ a prisoner. In fact I got home with two - one of which I sent to Dr. Kowdale.

Surely did enjoy our visit with you and Mrs Stenzel but hope next time we can have a little longer so you can give me all the developments ~~and~~ and the lowdown on things in general.

Poor old Turner is surely unhappy - hope he can make a connections with a bank more satisfactory position in the industry or teaching Dept. line. as ever.

He bought a little 5 room house in order to  
live in Houston but Lucy is still hoping for a  
miracle - something she likes in our price range.
