Dear John E.:

If Newell is to go to Johns Hopkins then the position at the American Museum of Natural History and Columbia is still open. I have written to W. Bucher enquiring about the possibilities at Columbia but have so far not received a reply.

Perhaps I should write to Newell and ask him what the conditions were that were offered him at the American Museum of Natural History and Columbia. It was supposed to be an excellent combination. Could you write to one of your friends at Columbia and find out for me?

Many thanks.

Sincerely yours
