Dr. H. B. Stenzel,  
Bureau of Economic Geol.,  
Austin, Texas.

Dear Dr. Stenzel:

The columnar section chart which I gave you when you visited the Sumner camp here this summer has an error in drafting which I have corrected and I wish you would replace it with the correct print attached hereto. Two little letters in the word "MESOZOIC" got drafted wrong which made it "CENOZOIC" and caused me no end of trouble.

Thanks a lot for destroying the old one.

Yours truly,

J. O. Burford.

P.S. If you already have some data on the print and don't want to destroy it, please clip the corners so that the first 3 letters of the lowermost "Cenozoic" are removed. That will make me feel a lot better!

J.O.
