

UNION PRODUCING COMPANY

HOUSTON • TEXAS

November 5, 1940

Dr. H. B. Stenzel
Bureau of Economic Geology
The University of Texas
Austin, Texas

Dear Dr. Stenzel:

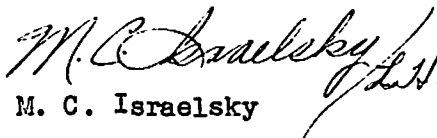

I am very pleased with the excellent returns of my slight investment. On the "Yegua Problem" you convince me that the Nonionella zone belongs in the Jackson. Your arguments are incontrovertible also I begin to see why you wish to go to Alabama.

I am leaving for Shreveport in the morning and will be gone all week but hope to give you hell when I get back.

I very much regret not being able to attend the Austin meeting and to hear your Carrizo paper, which was very well received by the Houston contingent. I trust the mountain may come to Mahomet.

Hoping you are your usual charming self and all is well with you.

As ever,

M. C. Israelsky
