PROFESSOR OF GEOLOGY

March 19, 1945

Dr. H. B. Stenzel
Bureau of Economic Geology
Austin, Texas

Dear Dr. Stenzel:

Our new library is lined with the building stone which is quarried out of Austin and which contains, as you perhaps remember, a number of fossils. One fossil which has attracted a good deal of attention is that of the shrimp or lobster type.

I am wondering if you have described any lobsters from this horizon and if so, where we could get the description. Are fossils of this type of rare occurrence at this horizon? Incidentally, may I ask just what horizon the building stone is?

Best personal regards.

Very sincerely yours,

Ellis W. Shuler
