February 8, 1968

Dr. Henryk B. Stenzel
Department of Geology
Louisiana State University
Baton Rouge, Louisiana

Dear Henryk:

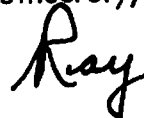

Thanks ever so much for your letter to me dated
1 February 1968.

I was sorry to read about your severe illness from infection
which hit you in late January. I have been similarly bothered.
Because this is not the first time you have been in critical trouble,
I write again to ask what we shall do in the event you are unable
to finish Treatise oysters. Pray God this doesn't happen, but
lets keep things in motion as actively as possible until we are
through with this essential chunk of work.

I am glad to have the glossary definitions submitted and
your approval of my revision of your note on Pycnodontinae.
Later on, when other pressures are off your back, I think that
you should proceed in filing an application to ICZN in order
to comply with the Code.

With best wishes,

Sincerely,

Raymond C. Moore
