

April 1, 1944

Mr. Curtis J. Hesse
Museum
A. & M. College
College Station, Texas

Dear Sir:

The Dallas committee returned the photographs of Turner and you to me, and I must say I am very glad to have both of them for keeps--with your kind permission. There was a note with the photographs that they arrived too late to be used.

The American Journal of Science sent the galley proofs of the Turner and Stenzel invertebrates from Burkeville. I presume this article will be printed separate from the others. I shall probably be in College Station around the 5th or 6th of next week.

Cordially yours,

H. B. Stenzel, Geologist

HBS/mj
