Dear Stenzel,

Here is one just received in the mail:

AFRICOGRYPHAEA Freneix, 1965, Annales de
Paleontologie, 51, p. 32 (as subg. of
Gryphaea Lamarck) Type (OD) Liogryphaea
costellata Douville, 1916, Les terrains
secondaires ... massif du Moghara ... etc.,
Mem. Acad. Sci., ser. 2, v. 54, p. 58, pl.
6, figs. 10-12.

It is possible that the Jap. Fish Bull. with
Sanoostrea may be in our Biol. Dept. Library, for
we have an active Ichthyological group here. However,
that library is closed this month while the
librarian takes a vacation, and I have not been
able to find the man with the key so far. As soon
as I can I will try to check their holdings and
see what I can find.

as ever
