Dr. H. B. Stenzel  
Bureau of Economic Geology  
The University of Texas  
Austin, Texas

Dear Dr. Stenzel:

I want to thank you for sending me  
the following publications:

"New Zone in Cook Mountain Formation, Crassatella  
Texalta Harris-Turritella Cortezi Bowles Zone".

"New Eocene Brachipods from the Gulf and Atlantic  
Coastal Plain and Tertiary Nautiloids from the  
Tulf Coastal Plain".

"The Gastropod Genera *Cryptochorda* and *Lapparia*  
in the Eocene of the Gulf Coastal Plain and  
*Turritellidae* from the Paleocene and Eocene of  
the Gulf Coast".

"The Yegua Problem".

I enjoyed reading these articles very  
much.

I am inclosing a few photographs of  
some fossils. I believe they are different from  
the ones I recently gave you.

Respectfully yours,

F. W. Rolshausen
