Dear Bennett,

Thank you very much for all the care you bestow upon me. The flight which you propose is very suitable for me.

Ten days ago I sent you the summary of my report. The report will be ready in two weeks. I can send it to you then or I shall take it with me after mimeographing it into 25 copies for distributing among the other members of the colloquium.

I still haven't received a visa for the U.S.A. though I have taken steps for it in the American Legation in Sofia. I hope I'll have it till September. But it might be as well to write a letter to the American Legation about it, if they don't give me it before 15.VIII.

Sincerely yours

Prof. V. Georgiev
