Professor H.B. Stenzel  
Louisiana State University  
School of Geology  
Baton Rouge, Louisiana 70803  
USA

Dear Professor Stenzel,

Thank you very much for sending back the oysters you borrowed from our Museum.  
I am specially grateful that you worked with our material and I have to thank  
you also in the name of the Museum.

Unfortunately it resulted from the control according to our bill of loan No.274  
of 17th/1/61 with annex also in comparison with your list a difference as follows:

The following numbers are missing

G 2266/1-9 Ostrea knorri  
G 2286        "            carinata  
G 2310/1-6 Gryphaea arcuata.

I should be very much obliged to you if you would take charge of this matter  
and examine it. In your parcel we found 4 isolated little oysters without  
numbers and labels in a little glass tube. Can you remember where they belong  
to?

Thanking you in advance for all your trouble, I remain with best wishes and  
kind regards

Yours sincerely
