AIR MAIL

Mr. L. W. Storm
4001 Agnes Street
Corpus Christi, Texas

Dear Mr. Storm:

Your letter of October 8 concerning a Wilcox paper for the Monterrey meeting of the South Texas Geological Society was received this morning. I wish to express my appreciation to you and Mr. Kolm for your kindness in offering me the opportunity of presenting such a paper.

However, as you may know, I went on the preliminary trip in September and collected numerous samples from the outcrops along the route to be covered by the main group in October. The object of this was to provide additional information to be used in the preparation of the road log for the October trip. I have spent considerable time in examination of these samples and do not believe I could spare the additional time necessary for the preparation of a paper. As a matter of fact, I do not expect to be able to attend the Monterrey meeting, being more or less tied to the office at the present time.

I hope my inability to present a paper will not seriously inconvenience you.

With best regards, I am

Very truly yours,

J. B. Garrett
