Mr. Moshe Avnimelech
Geological Department
Hebrew University
Jerusalem

Dear Sir :

Please accept my thanks for the separate of "Upper Cretaceous Serpulids and Scaphopods from Palestine" which you were so kind to send to me recently. I am very glad to have this paper which is of considerable interest to our local Cretaceous. By separate mail I am sending you nine of my separates which I hope will arrive safely. I would appreciate it if you were to send me your future publications in exchange.

Please give my best regards to Leo Picard.

Very truly yours,

H. B. Stenzel, Geologist
