Mr. Charles Row
Sun Oil Company
Milam Building
San Antonio, Texas

Dear Mr. Row :

I believe there is a problem which the South Texas Geological Society's committee on Tertiary nomenclature might consider. For your convenience I am enclosing a letter that Mr. Garrett wrote to Mrs. Plummer. Chief question to effect the nomenclatorial committee would be as follows: Should we recommend that the Midway be called Palaeocene and the Wilcox lower Eocene or not? For your convenience I have included enough copies of Garrett's letter so that you may distribute it to the various members of our committee.

Sincerely yours,

H. B. Stenzel, Geologist
