

September 2, 1937

Mr. Fritz Mueller
Skelly Oil Company
Esperson Building
Houston, Texas

Dear Fritz:

The following books will be important for your trip:

- U. S. G. S. Bull. 142, Vaughan, La.
- U. S. G. S. Bull. 283, Crider, Miss.
- Hilgard, Agriculture and Geology of Miss., 1860.
- Shreveport Geological Society Field Trip Bulls.
- La. Dept. of Conservation, Geol. Bull. 9.
- Catahoula and Concordia Parishes, 1936.
- Report on the Geology of the Coastal Plain of Alabama, E. A. Smith and others, Alabama Geological Survey, 1894.
- Veatch, Geography and Geology of the Sabine River, La. St. Exper. Sta., etc., Geol. Agr. La., pt. 6, sp. Rept. 3, pp. 101-148.
- Notes on the Geology along the Ouachita: La. St. Exper. Sta. Geol. Agr. La., pt. 6 sp. rept. 4, pp. 149-172.
- Geology and Underground Water Resources of Northern La. and Southern Ark., U. S. G. S. P. P. 46.

Geologic Maps

The newest maps available are:

- La.--A. A. P. G. Bull. 15, p. 531.
- Miss.--U. S. G. S. Water Supply Paper 576.
- Ala.--Special Report 14, Ala. Geol. Survey.
- Fla.--Geology of Fla., Fla. St. Geol. Survey, 1929.

I would be indeed very highly pleased if you could collect some material for me. I am particularly interested in the following things:

1. Lisbon, Ala.
2. Hammett's Branch
SW $\frac{1}{4}$ sec. 30 T 18 N R 6 W
2 miles NE of Mount Lebanon
Bienville Parish.
3. St. Maurice, Winn Parish.
4. Lisbon at Claiborne Landing.

I am sending by separate mail my notebook on 1933 trip which contains all the information that you will need on the localities that we visited. Please be sure to return this notebook promptly as it is rather an important document. Of the books which I have mentioned above Smith's report on the geology of the Coastal Plain of Alabama, 1894, I have in duplicate and could let you have one copy for the trip. It contains descriptions on the bluffs in Alabama with drawings. It is one we used on our trip.

Hope you have a good time on the trip and get to see important localities. Please do not forget my collections.

Cordially yours,

H. B. Stenzel, Geologist
