Dr. Adrian L. Rundle:  
Department of Geology  
University Park,  
Nottingham, NG7 2Rd  
England

Dear Dr. Rundle:

Thank you for your letter of 27-9-1968. If you did not receive a thank-you note from me for the 3 other reprints which you sent me about six months ago, I must not have received them. I make it a point to write an acknowledgment or thank-you note everytime I receive a scientific separate. It is a good habit and not difficult to do where typists are available.

Could you let me know how and where one might subscribe to the "Mercian Geologist" and obtain a complete set of back issues. I would like for our University library to have a complete set.

With thanks,

Sincerely yours,

H. B. Stenzel, Professor  
School of Geology

HBS:lh
