Dr. H.B. STENZEL  
H o u s t o n / Texas (USA)  
3737 Bellaire Boulevard

Dear Colleague,

My best thanks for the really very better copies of the pictures for the "BEDERKE-Book". 11 manuscripts are here and I hope to have the rest here till the end of the year. The print can begin in january 1965. The printing-office is engaged before.

I wish to ask, if the title of your paper can be expanded to: A new danian brachiopod from Texas, his stratigraphical and palaeogeographical importance? ore an similar #title. If you wish to add anything namely for the purpose of the expanded title, you can it do till 1. 12.1964.

With my best wishes,

Sincerely

7.-31.10.1964 I am absent from Cologne without adress!
