

Dear Dr.Harris,

Mr.John E.Adams wrote me that you intend to make an excursion to the eocene of Stone City. I am very interested in this place and have collected some fossils there too. Should you care to have me,I would like very much to accompany you,if your plans permit it. I would be very much obliged to you,if you could kindly let me know what time you intend to be there. I am,as you may know, teaching here at AAM. Mr.Adams or Mr, Adkins will be able to give you any information you may need.

I am

Yours truly

H.B.Stenzel.
