Dear Dr. Stenzel,

When leaving Houston I somehow forgot to take the proper reference to the little green book by G. G. Simpson, published in 1965 and containing many of his papers. I would be much obliged if you could send me the title and publisher.

At the moment I am trying to get my feet on the ground in the academic world. It is not always easy to recall many things one has heard ten or more years ago. If you ever come this way please let me know. We would all enjoy hearing such an interesting story about the oyster as you presented a while back at Shell.

Thank you and best regards,

Yours Peter Gretnier
