Dr. F. H. Lahee
c/o Sun Oil Company
Dallas, Texas.

Dear Dr. Lahee -

I have just received a letter from Dr. H. B. Stenzel, of Texas A & M. College, containing titles and abstracts of two papers which he wishes to present at the meeting in Dallas. One of these is a short paper for presentation at the paleontological session, the other, on the Sparta-Crockett transition on the Brazos River, Texas, he hopes to present at the full session of the A. A. P. G.

He has stated, however, in his letter to me that if he cannot be allowed the full ten minutes requested for this paper, that he prefers giving it before the paleontological session. I am sure that both Dr. Stenzel and I would appreciate your letting us know as soon as possible whether he may expect to deliver the paper before the A. A. P. G., or whether it should be transferred to the paleontological program.

Yours very truly,

C. J. Alexander
