

LAWRENCE COLLEGE
APPLETON, WISCONSIN

Oct. 14, 1958

Dear Emmett,

Thank you for NESTOR, and congratulations on getting ~~it~~ it off to an institutional start. Though I use it less than I wish I could (with greater access to periodicals) even to me it is useful.

I hope you are well launched at Texas. I shall hope to catch up more adequately with your fortunes (and I hope fortune) if you are at the meeting in Cincinnati, as I expect you will be.

At the same time I also hope to be able to get ahold of my boy Sonkowsky and see what he intends to do with himself. He has possibilities, but I am not at all sure that he got much help towards realizing them from his work in graduate school. We shall see.

Our love to Marja and the children.

Yours,
Maurice
