HISTORY OF ART

23 Glenwood
Hyannis Park, Mass.
July 2, 1949.

Dear Professor Kober:

I was very glad indeed to receive your letter of June 15th forwarded to me here and read that the project of the Kinovan Linguistic Research of the University Museum was placed in your capable hands. Sometimes Carl Daniel and I talked in knots about the project and I am glad to see that it is being continued. And they could find no better person to direct the work than you. I am glad. As you state the concentration of all available material should be the first and most important step and you are doing it, I wish you good luck in this. There perhaps other steps may be indicated; I hope to see you in Baltimore next Christmas and talk the matter over with you and learn from you. I am sure that you know more about it and you will be able to direct the rest of us in the work. At any rate I am always at your disposal and I want to assure you that I shall be glad to be of service to you and the project. Please feel free to call on me at any time. As soon as I get to St. Louis I shall send you any of my reports that may prove of interest to the collection.

With best personal regards & wishes for the success of the project,
Yours ardently
G. S. Stebbins
