GEOLOGICAL SURVEY

WASHINGTON

May 2, 1933.

Dr. H. B. Stenzel,
Agricultural and Mechanical College of Texas,
College Station, Texas.

Dear Doctor Stenzel:

Thank you for your letter of April 18, and for your kind permission to use your data for Leon County on the new geologic map of Texas. We have your map transmitted by Doctor Sellards but I shall wish to use the detailed lines shown on your map which, in accordance with your suggestion, I borrowed from the National Research Council. A copy of these lines, reduced to the scale of the new State map, is inclosed for your criticism.

I shall be very glad to receive your map showing the basal Jackson contact in Brazos County.

Sincerely yours,

Julia Gardner

Julia Gardner,
Geologist.

Inclosure 287304.
