Dr.H.B.Stenzel,  
Bureau of Economic Geology,  
The University of Texas,  
AUSTIN,  
Texas,U.S.A.

Dear Dr.Stenzel,

I was rather surprised to get your letter of 22nd May, because the 13 Cirripedes in question were those duplicates which you selected yourself and sent to me from the specimens which I had already returned.

I fully appreciate your view-point, however, and it will clear the air at once when I say (1) that the one type\* will be returned to you, and (2) the eight other specimens that I am figuring in my Monograph (Pl.xxi,figs.7-10; Pl.xxii,figs.7-10) have been or will be returned to you, so that you will have all the figured specimens. I could, of course, have figured the duplicates you sent me, but I would not even do that.

I am sending the attached list of the 13 Cirripedes presented by the Economic Bureau.

Hoping that you will be relieved in your mind, and with kind regards,

Yours sincerely,

\* Lepas stenzeli

J. N. Collins.
