AIR MAIL

**Mr. D. J. Beets
Geologisch Instituut
Nieurve Prinsengracht 130
Amsterdam, Netherlands**

Dear Sir:

Professor MacGillavry wrote me on February 26, 1964, that you have a collection of fossil oysters from Curaçao. If you can send these specimens to me, I may be able to identify them. However, I must warn you that it is not always possible to do this sort of work promptly.

Very truly yours,

H. B. Stenzel

HBS:jmf

P.S. I may go to Amsterdam this summer sometime.
