

4 Westfield Road,
Southbourne,
Bournemouth, Hants.

24th April, 1950.

Dear Prof. Stenzel,

We have now received your very large parcel, which caused much excitement in this house. The contents will be most useful, and we do very sincerely appreciate your kind thought in sending it. Just lately things have got a little easier, and we are hoping that they will improve as time goes on.

I wish to thank you also ~~for~~ for kindly giving me your views on the English Cenomanian species of Rathbunopon, and to apologise for my omission to point out that the specimen was mainly an internal cast.

With regard to R.oblita I had thought that it would be a good thing to subject the type to re-examination, and I must admit that I did not consider it very close to R.polyakron. I will put it down on my list, but at the moment I have much more than I can deal with.

With kind regards, and renewed thanks,

I am, Yours sincerely,

J. H. Worthen
