

February 26, 1946

Dr. M. K. Elias
102 Nebraska Hall
University of Nebraska
Lincoln 8, Nebraska

Dear Doctor Elias:

Your letter of February 16, the translations of the three Russian articles, the photostats of the latter, and Salfeld's publications have arrived here. Many thanks for the pains you took to translate this material for me. It will help me greatly in getting oriented.

I shall be happy to translate the Salfeld article for you and shall get started at once.

With best regards,

Sincerely,

H. B. STENZEL
Geologist
