Dear Stenzel -

I am almost a month late in answering your letter of Oct. 12. Thanks a lot for mailing out our separates! I don't believe I have gotten a copy of the one that appeared in the A.A.P.G. I have heard nothing from Wisconsin but did learn that Wisconsin read the newspaper to find out that Newell had gone to Hopkins. Parker Trask will take Twenhofel's place.

Thanks for considering throwing my name in the pot at U. of T. I doubt if I could very successfully or enthusiastically take over micro-paleo. Of course there would be advantages and also drawbacks to getting into the Dept. at Austin. I believe you are acquainted with the most of them.

It will be months at least before I will be released from the Navy. Meanwhile of course I shall be listening and looking to see what is drifting around.

A while back things were unpleasant around here and I would have gotten out - at the slightest opportunity. However the causes have been removed and things are much happier around the base.

Best Regards

F. E. Turner
