Mrs. Katherine Van W. Palmer
Paleontological Research Institution
109 Dearborn Place
Ithaca, New York

Dear Mrs. Palmer:

It is good news that you intend to republish Conrad's work. I hope you will reproduce the original Conrad text photographically by offset printing and not use the new type-set text that Harns published. Perhaps you could sneak in a note that the types of Conrad's Lutraria papyria were figured in University of Texas Pub. 5704, pl. 16, pp. 1-3.

Two copies, both incomplete, of the original Conrad are in my possession. One was a Xmas present from Helen Plummer; the other was ordered from Europe and was Dautzenberg's private copy at one time.

Best wishes,

H. B. Stenzel
