Austin, Texas

Dear Dr. Stenzel:

On behalf of the Houston Geological Society we wish to express our appreciation of your taking the time to present to us your very fine paper on "Surface Relations of the Carrizo Sand". The use of your Kodachrome pictures in illustrating the color differences between formations made quite an impression on me and I hope that such material will find its way into the literature on a wider scale. We trust your paper will be published shortly.

Thanking you again, I am

Sincerely yours,

GSB/ld
