NEW BRUNSWICK NEW JERSEY

DEPARTMENT OF GEOLOGY

September 30, 1940

Mr. H. B. Stenzel, Geologist,
The University of Texas,
Bureau of Economic Geology,
Austin, Texas

Dear Mr. Stenzel:

Thank you very much for your letter of September 27th indicating that you would like to exchange some paleontological material. I note that you are most interested in Tertiary fossils and have Cretaceous material available for exchange. I hope that we can send you some material very soon. We are busy, at the moment, with the beginning of the term but in a short time, I shall send you a box of Tertiary fossils.

Would you be interested in any of the Bryozoa of the Vincentown formation? As you probably know, there is a difference of opinion in regard to its age, whether it is Upper Cretaceous or Tertiary.

Yours sincerely,

Albert O. Hayes
Albert O. Hayes
Professor of Geology

AOH/Mr.
