Dear Leroy:

Thanks for your letter of July 11 and the good news that all your thesis material is at hand. I hope you can get it ready as soon as possible because I would like to see you receive the degree for which you have done so much work.

Beckert's thesis has just been approved and he is finished. He will receive his degree August 31st. His map makes a very excellent impression.

With best regards, I am

Sincerely yours,

H. D. SWENDEL
Professor of Geology
