Dear Colleague Bennett,

I thank you very much for the "Nestor", the Supplement to Minos (Olive Oil Tablets) and the separatum from the Sundwall-Festschrift. Just now I received from Miss Milani her article about the Oil Tablets. It is - as I think - written to soon, published to late, and I do not know if it helps us much.

After the Colloquio di Pavia I have written a study about the problem of the relations between the different hands and the different forms of the dialect. Of course, your study of the different hands is the basis of this examination. I send it to you and I beg <sup>you</sup> to permit me to publish this article. I have shown the manuscript to Mr. Mühlestein and to Mr. Chadwick. There are some points which must be modified, but I think that it is better if I send the manuscript now. I would be very glad and very thankful if you read it and say me your opinion about my study.

Best wishes for the New Year,

Yours very sincerely
